## 🎓 EDUCATION

**Faculty of Automatics and Computers, CTI-RO, 2nd year**  
Polytechnic University of Timișoara

2022 - 2026 | Timișoara, Romania

Relevant coursework: OOP (Object-Oriented Programming), Data Structures and Algorithms, Computer networks, Databases (MySQL), Special Mathematics

**Graduate**

2018 - 2022

"Traian" National College

Drobeta-Turnu Severin, Romania

Profile: Bilingual Mathematics-Informatics (English)

## 📁 PROJECTS

**Forvia-Hella, Liga AC labs**

04/2024 - 06/2024

Development and testing of fuel pump control

**Web Portofolio | HTML, CSS, JavaScript, VScode** 🔗

Here I developed a website entirely from scratch, where I gained hands-on experience in applying fundamental concepts of project creation, organization, and mobile optimization. This project allowed me to enhance my skills in structuring and executing a complete web development process.

**Notes viewer** 🔗

A drive containing a selection of my university notes to date. These notes provide insight into my analytical thinking and demonstrate how I approach and solve complex problems.

**Animal adoption SQL database | SQL, ORACLE APEX** 🔗

The code can be further viewed on my GitHub profile. It contains tables that are equipped with primary keys to uniquely identify each record, foreign keys to establish relationships between tables, constraints to maintain data integrity, and fields of varying data types to capture diverse information. For seeing the code in action, you will need a working apex oracle account.

## 🌐 LANGUAGES

Romanian – Native

English – Advanced

German – Beginner

## 📚 PROGRAMMING SKILLS

C  
Java (+OOP)  
HTML  
CSS  
JavaScript

## 🧠 SOFT SKILLS

Teamwork  
Communication  
Attention to detail  
Logical thinking  
Curiosity
