👋 PROFILE

Beyond academics, I have various passions that blend creativity and precision. I enjoy painting for self-expression and assembling watches for its attention to detail. Photography and editing allow me to capture unique moments, while traveling helps me explore new cultures. I also love reading detective novels for the intellectual challenge. In my free time, I study physics and teach it to other students, as it is a subject that truly fascinates me.

🎓 EDUCATION

Faculty of Automatics and Computers, CTI-RO   2022 - 2026 | Timișoara, Romania
Polytechnic University of Timișoara

Relevant coursework: OOP (Object-Oriented Programming), Data Structures and Algorithms, Computer networks, Databases (MySQL), Special Mathematics, Operating Systems

Graduate   2018 - 2022
"Traian" National College   Drobeta-Turnu Severin, Romania
Profile: Bilingual Mathematics-Informatics (English)

📂 PROJECTS

Forvia-Hella, Liga AC labs   04/2024 - 06/2024
Development and testing of fuel pump control

Haufe Group, Liga AC labs   04/2025 - 06/2025
Full Stack Web Development

Tic Tac Toe | C, threads, server-client, sockets 🔗
This C project implements a multiplayer Tic-Tac-Toe game using a server-client architecture with sockets and threads. The server manages player connections, pairs them into game sessions, and facilitates real-time gameplay. Players take turns making moves, with the server checking for wins or draws. The game state is sent to both players after each move. If a player disconnects, the opponent is notified. The game continues until a winner is determined or both players choose to exit.

Hobbiz | React, NodeJs, MUI, Vite, JavaScript, CSS, HTML 🔗
A web aplication that helps people monetize their skills and hobbies.

Notes viewer 🔗
A drive containing a selection of my university notes to date. These notes provide insight into my analytical thinking and demonstrate how I approach and solve complex problems.

🌐 LANGUAGES

Romanian — Native   **English** — Advanced   **Spanish** — Conversational

📖 PROGRAMMING SKILLS

C, Java (+OOP), HTML, CSS, ReactJs, Linux, VSCode, IntelliJ IDEA, Android Studio
